- 2018 BOSTON COLLEGE, CHESTNUT HILL, MA
Ph.D. Candidate in Economics
Committee: Claudia Olivetti, Robert Margo, and S Anukriti
- 2010 MICHIGAN STATE UNIVERSITY, EAST LANSING, MI
B.S. in Mathematics (*Dean's List, Honors*)
B.S. in Economics (*Dean's List, Honors*)

Fields

Labor, Health, and Public

Job Market Paper

“The Long-term Impact of Public Health Measures Targeting Children”

This paper estimates the long-run impact of public health measures targeting children on adult human capital. From 1908 to 1933 public and private agencies in the United States instituted county-level health departments (CHDs) that provided sanitation and health services geared toward children. To estimate the long-term benefits, I exploit variation in the timing, location, and age of CHD exposure. Children treated under the age of five show later-life earnings improvements of three to four percent. I investigate the mechanisms underlying this effect and demonstrate that higher earnings emerge from better adult health, measured by cognition and body mass index.
